About EduPark

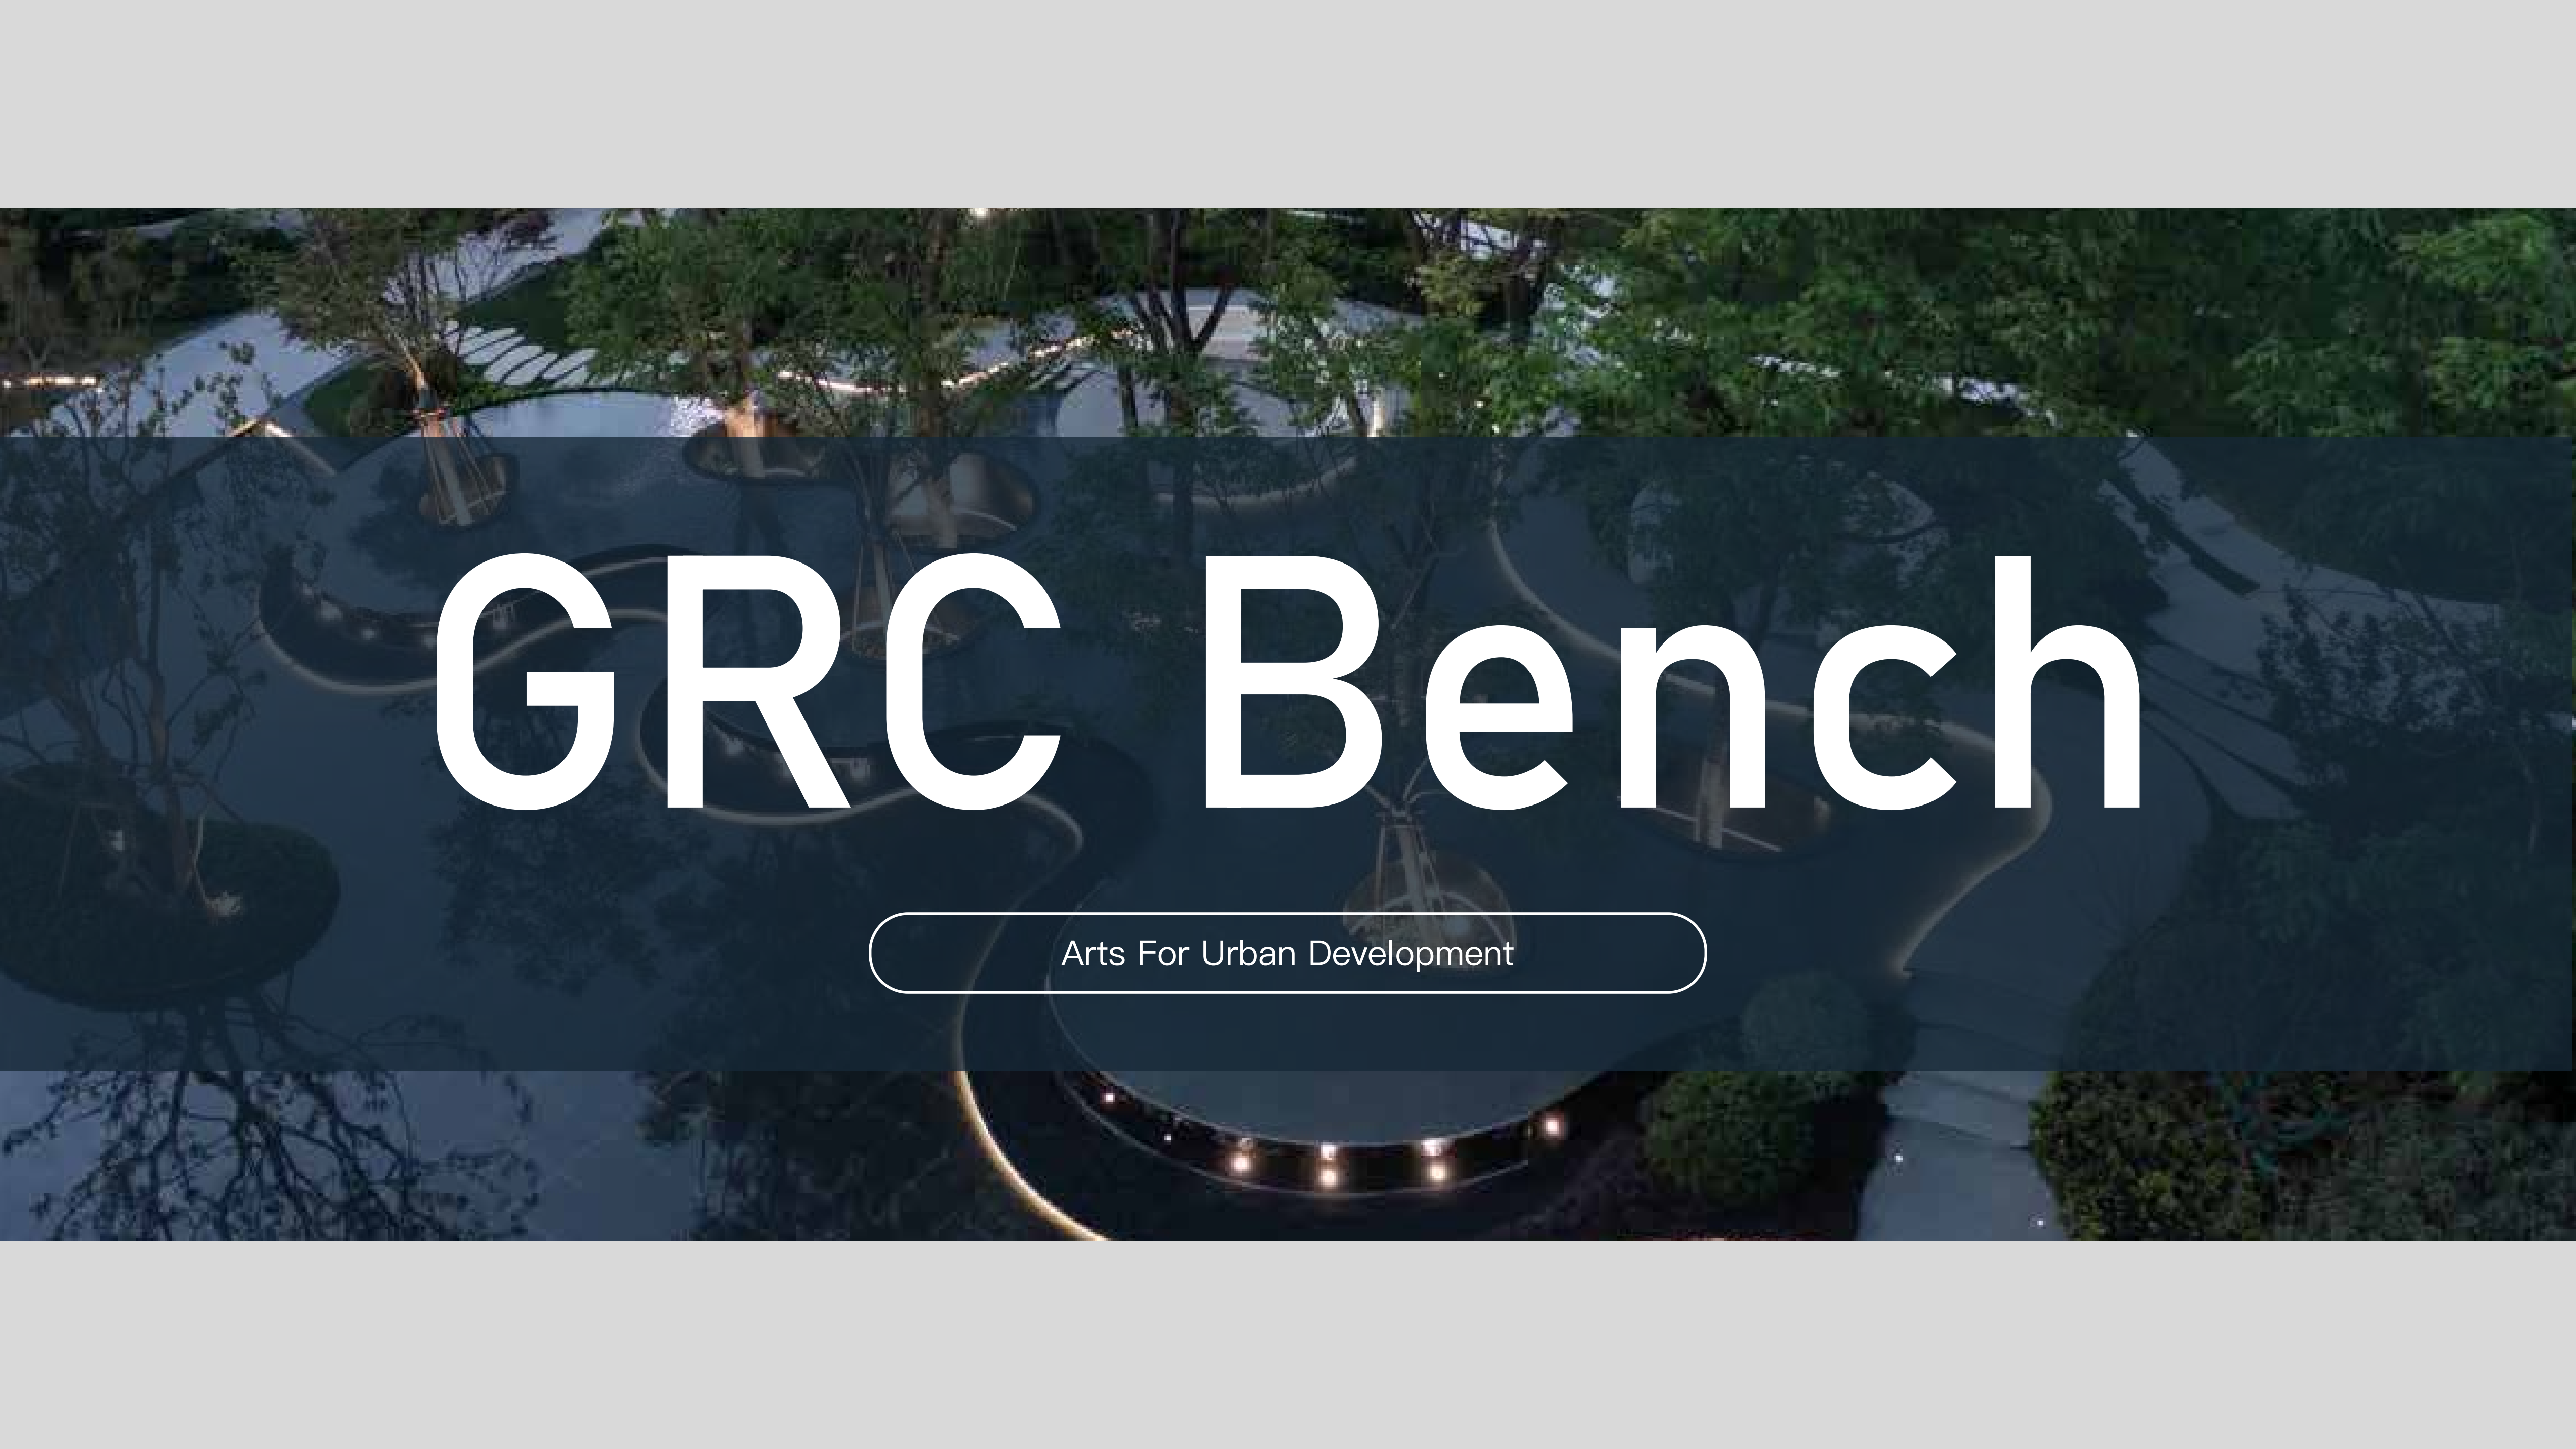

About EduPark Leisure & Sports Solutions

Over the years, EduPark has evolved from a sports and leisure solutions company into a provider of comprehensive artistic services and products. We focus on integrating artistic value into urban and recreational developments. By representing leading international manufacturers and collaborating with artists and architects worldwide, we stay aligned with the latest trends and lead the way in bringing art into public spaces.

We have managed diverse sculpture and art projects across multiple sectors, including public parks, educational institutions, civic developments, and commercial spaces. We have gained valuable expertise in production coordination and quality supervision. At EduPark, we ensure access to a wide variety of materials and production methods from trusted global partners.

EduPark is dedicated to offering complete artistic project support, including consultancy, cost planning, project supervision, original concept creation, detailed development, prototyping, fabrication, international logistics, and professional installation.

An aerial night photograph of a park. A winding path is illuminated by a series of small, warm-toned lights. The path is surrounded by lush green trees and foliage. The overall scene is dark, with the path lights providing the primary illumination.
